Gift them health!
Show them that you care!

Access a doctor from work or home or anywhere!

₹1 spent on prevention saves ₹133 in absenteeism costs and ₹6.62 in healthcare costs”. Preventive Healthcare and wellness programs can change employee behaviour, improve their bio-metric risk profile and work productivity. Employees undertaking regular health checkups have 45 per cent lesser absenteeism and their medical reimbursements are 20 per cent less.

Select Consultation Time
Choose your consultation time based on your availability

Diagnosis
Doctor will diagnose and prescribe medication (as required)

According to a report by the Healthcare Performance Management Institute in 2013, and attributed to National Ambulatory Medical Care Survey 2006 (August 2008), **70 % of the health issues can be handled online** and only **30 % issues require a patient to travel to the doctor.**
The benefits of a workplace wellness program improves presenteeism and productivity, control/reduces escalating health care costs, increases employee loyalty and reduces attrition rate. Employees leading healthy lifestyles tend to take lower sick leaves and perform better. The increased productivity helps to reduce the overall costs of the organisation.
